
CIVx

Civx is an inclusive public space

In a series of events, publications, broadcasts... people tell their stories.
Topics, locations, facilitation... varied
Rulebook remains the same: core values (listening, inclusivity, safe, civil) + scenario, organising principles
Civx provides platform for sharing, translations, website and other tools → an open source model
Allies are: public service organisations, schools, theatres, bars, malls, fairgrounds... and foundations + sponsors
"Silent" start with a number of "prototypes" which help to write the rulebook; in different regions
All invited: class, income, urban, rural, gender diversity, politics, religion/faith, region, nationality, colour...

PRECIOUS LEARNING from PREVIOUS FAILURES

- wrong, unfaithful funders
- wrong people/management
- dispersed responsibilities
- adverse effects
- no/wrong alliances
- failure to focus on purpose
- ~~about~~ ignoring context
- execution is crucial
